CURRENT DETECTION

—

Tip: Smile / Open mouth / Wink / Turn head

Demo uses existing values (no packet format change). If "Send CMD" is enabled it sends lines like CMD:SMILE.

WEBCAM

Live view

Tip: good lighting helps detection.

468 landmarks, 60 fps

Google's MediaPipe FaceLandmarker runs locally — no upload. 11 signals stream at 10 Hz.

10 pre-built detections

Smile, wink, blink, mouth open, eyebrow raise, head-yaw, head-pitch, head-roll, tongue out and more.

TTS in 12 locales

Narrate signals in 12 languages. Optional micro:bit V2: 19-digit packet → LED arrows.
